Disability Income Insurance

Protect Your Most Valuable Asset
Your Ability To Earn A Living
Your lifestyle and dreams for the future depend on your ability to earn a living.

When you take into account all that you’ve worked so hard to achieve, consider the fact that your paycheck made it all possible.

One of the most important decisions you will make will be to insure your ability to earn an income.

Disability Income Insurance will provide you with monthly income if you are unable to work as a result of an injury or illness.
Your Income At Work

We protect our homes, cars, lives and even identities with insurance. But we often fail to consider protecting our most valuable resource – our income.

Your Income pays for the big things

Your Income pays for the little things

Your Future Relies On Your Income. Think about it. Buying a home, sending the kids to college, and having enough for retirement all rely on receiving a regular income. Are you prepared if a sickness or injury prevents you from working?

Does Your Income Protection Plan Satisfy Your Needs?

If you are suddenly unable to work for any period of time, you could lose your income and everything it provides. Will the following sources of income be sufficient to provide for you and your family?

**Social Security**
Of the 2.8 million workers who apply for social security disability benefits each year, 65% are denied.

**Worker’s Compensation**
Less than 5% of disabling accidents and illnesses are work related; the other 95% would not be covered.

**Retirement Savings**
Do you really want to use hard earned savings to pay for your daily living expenses? By withdrawing the funds you may also incur penalties and taxes.

**Borrowing From A Financial Institution**
Your chances of borrowing money from a financial institution would be slim without an income.

**Asking Family And Friends For Money**
Having to ask family or friends to borrow money will put unwanted stress on you at a time when you should be focused on recovering.

**Group Long Term Disability**
Employer sponsored plans only provide 60% of pre-disability earnings. After tax, this leaves you with an adjusted net income of 47% of your pre-disability earnings. Can you afford to take a 53% pay cut?
